### **PASSAGE**

Today, India looks to be on course to join the league of developed nations. It is beginning to establish a reputation not just as the technology nerve-centre and back-office to the world, but also as its production centre. India's secularism and democracy serve as a role model to other developing countries. There is great pride in an Indian that easily integrates with a global economy, yet maintains a unique cultural identity.

But what is breathtaking is India's youth. For, despite being an ancient civilization that traces itself to the very dawn of human habitation, India is among the youngest countries in the world. More than half the country is under 25 years of age and more than a third is under 15 years of age.

Brought up in the shadow of the rise of India's service industry boom, this group feels it can be at least as good if not better than anyone else in the world. This confidence has them demonstrating a great propensity to consume, throwing away ageing ideas of asceticism and thrift. The economic activity created by this combination of a growing labour pool and rising consumption demand is enough to propel India to double-digit economic growth for decades. This opportunity also represents the greatest threat to India's future. If the youth of India are not properly educated and if there are not enough jobs created, India will have forever lost its opportunity.

India's Information Technology and Business Process still account for only 0.2 per cent of India's employment. The country has no choice but to dramatically industrialise and inflate its economy. According to a recent survey, more than half of India's unemployed within the next decade could be its educated youth.

38. Consider the following statements:

- I. India's rich cultural heritage prevents India from surging ahead to become an active partner in the global economy.
- II. By and large, India's youth still believe in a thrifty lifestyle.

Which of the statements given above is/are *correct*?

- (a) I only
- (b) II only
- (c) Both I and II
- (d) Neither I nor II

39. What is the approximate number of people in India who are in the age group 15-25 years?

- (a) 500 million
- (b) 350 million
- (c) 210 million
- (d) 180 million

40. In the recent past, which sector has witnessed a phenomenal growth?

- (a) Heavy industry
- (b) Service industry
- (c) Petrochemical industry
- (d) Textile industry

41. Consider the following statement:

- I. Rising consumption demand will retard economic growth
- II. India's youth are its greatest opportunity as well as threat.

Which of the statements given above is/are *correct*?

- (a) I only
- (b) II only
- (c) Both I and II
- (d) Neither I nor II

42. Consider the following statement:

- I. Information Technology sector provides a relatively large proportion of jobs in India.
- II. In the coming decade only uneducated youth will remain deprived of employment opportunity.

Which of the statements given above is/are correct?

- (a) I only (b) II only  
(c) Both I and II (d) Neither I nor II
